Why choose D&D Metal Gate Hardware?

Exclusive features include:

- **Superior performance** – Patented features, thicker-gauge metal, superior cycle, strength and finish protection
- **High quality appearance** – No rough edges left from the stamping process & debris removed before finishing
- **Corrosion resistance** – The most complete finish/coverage on the market
- **Fasteners** – Treated with the exclusive Weatherguard™ finish, then powder coated for extra corrosion resistance
- **Patented polymer bearings** improve the life and performance of our standard metal hinges
- **High-tech lubricants** prevent binding and provide smooth and quiet operation for our heavy duty metal hinges
- **Packaging designed for YOU** – Extra thick, double-walled cartons with plastic banding ensure your product arrives in good condition
- **Warranty** – Only D&D backs the quality of its metal hardware – 10 Year limited warranty on metal products (springs: 5 yrs)

The quality, performance and value-added support you've come to expect from D&D is now available with metal hardware at competitive prices!

Poly Vinyl has joined forces with D&D Technologies to supply our customers with Metal Gate Hardware.

D&D Technologies, the most respected name in quality gate hardware worldwide, has partnered with Stanley, an internationally renowned general hardware brand, to offer Poly Vinyl Creations' customers a full range of metal gate hardware to complement its polymer range.

Through two powerful brands working together for our customers, you now have access to the highest quality metal and polymer gate hardware lines – with the sales, marketing and technical support you've come to expect from Poly Vinyl Creations and D&D Technologies.

The Poly Vinyl Creations and D&D partnership will help you increase business by providing these advantages:

- **Highest quality control standards** – Stanley operates its own production facilities
- **Finish and performance** – All products have been designed to exceed the competition
- **Pricing and Programs** designed to meet or exceed industry standards and competition – contact Poly Vinyl Creations for details.
- **Free marketing literature** – **sell more product** to your customers
- **Bilingual English/Spanish instructions** are printed on poly bags and include easy-to-follow pictorial graphics

Latches:

- **Superior performance** – Thicker gauge steel beats the competition in strength testing
- **Highly reliable** – Unique features automatically compensate for gate sag
- **Adjustability** – Overcome ground settling with vertical and horizontal adjustment
- **Easy to install** – Takes only minutes and instructions are printed on every package
- **Versatility** – Features that allow for flush and wall mount, as well as flat and round surfaces
- **Security** – Strikers on all latches have “heads” to prevent lateral disengagement

Accessories:

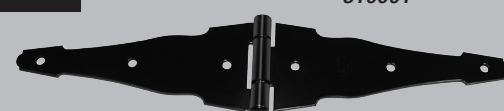

- **Safe & easy installation** – No special tools required
- **Long life** – Springs tested to over 1 million cycles
- **Safety** – Springs are tension adjustable to ensure gate closes long after installation
- **Easy to adjust** – Springs include sticker to assist consumer in adjusting tension
- **Reliability** – Drop-bolts won't drop and drag across driveways
- **Tamper resistant** – Dropbolts cannot be pulled out of brackets while mounted

Hinges:

- **No binding** – Ideal tolerances, patented features and pins not “frozen” by powder coating
- **Superior strength** – Up to 30% thicker steel and 22% larger-diameter hinge pins
- **Low maintenance** – Patented polymer bearings and exclusive high-tech lubricants
- **Change handing easily** – Hinge pins easy to remove and replace
- **Corrosion resistant** – Designs that allow powder coat to be applied to the entire surface

In General:

- **Consumer confidence** – Two of the hardware industry's largest companies form an alliance
- **Value-added services** – Free literature and bilingual technical support
- **No white rust** – Powder coated fasteners stay looking better, longer than the competitors' zinc coatings
- **Comprehensive instructions** – Pictorials along with English and Spanish text ensures proper installation
- **Unique designs** – Styling that sets you above the competition
- **Complete finish coverage** – Components are powder coated BEFORE assembly to minimize corrosion
- **Fixing strength** – Some products contain longer and more screws than competition for added strength
- **Superior quality control** – The best quality product & finish that last years longer than ordinary metal hardware
